

Butterfly Room

Sharing Activity Sheet

Spring Term 1st half 2017

Topics and Themes

- Winter
- Chinese New Year
- The 5 senses

Our circle time continues to be based on what we have been doing each morning and if the children have anything in particular they would like to talk to us about. Please let us know if your child has something special to talk about or show their friends.

We will also be talking about the importance of kind hands and sharing with our friends.

Our topics and things to talk about at home;

- Winter- During these two weeks we will be going for walks to look at the frost and maybe even the snow. We will be talking about what we need to wear to keep warm and talking about how different the trees look in winter time.
- Chinese New Year - 2017 is the year of the rooster and we will also be learning about why dragons are so important in Chinese culture. We will taste Chinese foods and making exciting crafts all related to Chinese New Year.
- The 5 senses - The children will be finding out through different activities how we use our hands, mouths, noses, ears and eyes to help us understand the world.
