Autumn Term 1st Half 2016

Topics and Themes

- All about me
- Colours
- Shapes
- Patterns and textures

Songs and Rhymes

We will be teaching the children the following:-

- Bumpity Bus
- Rainbow song

Things to explore at home

- We will be looking and learning all about ourselves and our families, you could start to talk to your child about your family, look at pictures of you and your family. If you could bring in some photos of your family we will put this up on our sharing board and we can use this to start talking to your children about family.
- We will be learning about ourselves and starting to label our bodies, hands, feet ect. You could start talking to the children about different parts of their bodies while cleaning teeth or washing faces.
- We will be looking at different colours, patterns and shapes. Although the children are very young it is great to start talking to them about all the different colours around them, what colour is your t shirt, toothbrush, favourite cup to drink out of. We will be looking at the different shapes all around us and using some of these in our play, you could do some shape sorters with your child or some jigsaws that all help and encourage the beginning of this exciting learning journey with your child.
